CKDM 110 Law of Disaster and Emergency Management

Certificate Credit
Engineering, Architecture, and Science Program Area

Duration: 39 Hours
Fee: $755* (Payment in full is required at time of enrollment.)

This course sets out the legal framework for emergency management in Canada. Students involved in emergency management will understand their own legal duties and powers as well as those of others. The primary legislation requiring the preparation of emergency management systems for government and private sector entities will be examined in depth.

FALL 2013
Priority enrollment is open only for students registered in certificate programs. Regular enrollment begins on July 15, 2013.

There are no classes/sections scheduled for this course in Fall 2013

* The standard fee for this course shown, but the fee that you are charged may vary from this. For example, part-time program undergraduate students are charged per their degree program fee table unless they are also registered in a certificate program and are not applying the course credit toward their degree program. Additionally, international students pay an international rate on most courses. Ryerson University also reserves the right to revise fees at any time.

In many cases, non-credit course series are not exempt from GST/HST. In these cases the applicable tax is part of the stated fee, as a "tax included" price, and is so noted.

Please see Course Fees for more information.
