ASIA: EARTHQUAKE & TSUNAMIS

13 January 2005

The Federation's mission is to improve the lives of vulnerable people by mobilizing the power of humanity. It is the world's largest humanitarian organization and its millions of volunteers are active in over 181 countries.

In Brief

Revised Preliminary Appeal No. 28/2004; Operations Update no. 17; Period covered: 12-13 January 2005; Appeal coverage: 68.7% ([Click here to view the provisional contributions list attached, also available on the Federation's website](#)).

Appeal history:

- Preliminary appeal launched on 26 December 2004 CHF 7,517,000 (USD 6,658,712 or EUR 4,852,932) for 6 months to assist 500,000 beneficiaries.
- Disaster Relief Emergency Funds (DREF) allocated: CHF 1,000,000.
- Revised Preliminary Appeal issued on 30 December 2004, for CHF 67,005,000 (USD 59,152,246 or EUR 53,439,988) for 2 million beneficiaries for 6-8 months.
- The Preliminary Appeal was originally launched titled "Bay of Bengal: Earthquake and Tsunamis". The title was subsequently changed to "Asia: Earthquake and Tsunamis" in the Revised Preliminary Appeal launched on 29 December 2004.
- Operations update No. 16 revised the Revised Preliminary Appeal 28/2004 budget to CHF 183,486,000 (USD 155,286,000 or EUR 118,669,000) with programme extensions for particularly Sri Lanka, Indonesia, the Maldives and East Africa.

Highlights of the Day:

- **Given the growing security concern in Aceh, Indonesian Red Cross urges Red Cross and Red Crescent partners operating in the country to adhere strictly to their guidelines with regards to movement of personnel and relief goods, as the military is restricting all movement in Banda Aceh, Aceh Besar district and Meulaboh.**
- **Additional transport means and volunteers have been mobilized to scale up the relief operations in Aceh. Federation and PMI operational structures are being planned and coordinated. Additional medical teams from Turkish Red Crescent and Swiss Red Cross are also arriving to boost health interventions.**
- **The logistics situation in Medan and Banda Aceh remains problematic due to increased air and land traffic volume. Sea options for bulk cargo are being studied.**
- **German Red Cross basic health care unit in Teunom, Aceh received today the first newborn. 200-300 patients are being attended to daily.**
- **The Spanish and French Red Cross water-sanitation ERUs are distributing 325,000 litres of water a day to more than 10 camps in Aceh by taps and tanker trucks.**
- **Myanmar Red Cross receives direct in-kind contributions including food items, blankets tents from the Iranian Red Crescent.**
- **Two recovery assessment teams are being deployed to Sri Lanka and Indonesia.**
- **Large quantities of mosquito nets, bed sheets, blankets, kitchen sets and other non-food items are still needed for Indonesia, Sri Lanka, Maldives, India and Myanmar.**

All International Federation assistance seeks to adhere to the [Code of Conduct](#) and is committed to the [Humanitarian Charter and Minimum Standards in Disaster Response](#) in delivering assistance to the most vulnerable. For support to or for further information concerning Federation programmes or operations in these or other countries, or for a full description of the national society profiles, please access the Federation's website at <http://www.ifrc.org>

Background

The magnitude 9.0 earthquake that struck the area off the western coast of northern Sumatra on Sunday morning, 26 December 2004, at 7:59 am local time (00:59 GMT) triggered massive tidal waves, or tsunamis, that inundated coastal areas in countries all around the Indian Ocean rim – from Indonesia to Somalia. Sri Lanka, the Indonesian province of Aceh, four states of southern India, the Maldives, coastal areas of Thailand, Malaysia, and Myanmar were the most severely affected. The earthquake epicentre was located at 3.30 N, 95.78E at a depth of 10 kilometres. The area is historically prone to seismic upheaval due to its location on the margins of tectonic plates. However, tidal waves of this magnitude are rare and therefore the level of preparedness was very low.

Summary of the human toll caused by the tsunami as of 13 January

| Countries | Dead | Missing | Displaced | Homeless | Sources |
|--------------|----------------|---------------|----------------------|----------------------|------------|
| Indonesia | 110,229 | 12,000 | 651,678 | 392,000 | Government |
| Sri Lanka | 30,893 | 6,038 | 441,410 | 480,000 | Government |
| India | 10,672 | 5,711 | 646,967 | 200,000 | Government |
| Maldives | 82 | 26 | 21,663 | n/a | Government |
| Thailand | 5,313 | 3,254 | n/a | n/a | Government |
| Myanmar | 59 | 3 | n/a | 3,205 | Government |
| Malaysia | 68 | 50 | n/a | 4,296 | Delegation |
| East Africa | 311 | n/a | 50,000 | n/a | Delegation |
| Total | 157,627 | 27,082 | >1,811,718 | >1,079,501 | |

Note: East Africa covers tsunami-affected countries of Kenya, Madagascar, Seychelles, Somalia and Tanzania.

Thousands of staff, relief and medical personnel, and volunteers of the Red Cross and Red Crescent societies of the tsunami affected countries have provided a vital initial response, in search and rescue, clean-up, providing temporary shelter and immediate relief assistance, emergency medical services, psychological first aid and tracing. It is estimated that over 5,000 Red Cross and Red Crescent volunteers and 76 relief and medical teams have been mobilised in the disaster-affected areas.

The Federation immediately launched a Preliminary Emergency Appeal on the day of the disaster with a focus on Sri Lanka, Indonesia and the Maldives. On 3 January 2005, the ICRC launched budget extensions additional to its 2005 Emergency Appeal for Indonesia and Sri Lanka. Along with initial support from the country and regional delegations, the Federation deployed within 24-72 hours three [Field Assessment and Coordination Teams \(FACT\)](#) and 14 [Emergency Response Units \(ERU\)](#) in the sectors of water and sanitation, health care, aid distribution, telecommunications, and logistics/transportation to Sri Lanka, Indonesia and the Maldives.

Overview

In response to a number of restrictions placed in the past few days on the movement of relief workers and goods, the chairman of the Indonesia Red Cross (Palang Merah Indonesia – PMI) on 12 January issued a letter to all national Red Cross Red Crescent societies, whilst expressing gratitude for the generosity of members of the International Red Cross and Red Crescent Movement in support of PMI, urged all Red Cross and Red Crescent personnel in Aceh to adhere to the following guidelines with immediate effect:

- Plans to send goods and/or personnel must be advised in advance and must only proceed with the approval of PMI.
- Approved personnel must arrive in Jakarta so as to receive appropriate briefings from PMI, the ICRC and International Federation prior to being deployed to Aceh.

According to the legal status agreements signed by both the Federation and ICRC with the government of Indonesia, any expatriate Red Cross or Red Crescent presence in Indonesia has to be authorized. Failure to adhere to these guidelines places the humanitarian activities of the entire Red Cross and Red Crescent Movement in Indonesia at risk. PMI welcomes support from the Movement and will commit to delivering quality humanitarian assistance to the vulnerable of Aceh utilizing resources donated.

Operational Developments

Indonesia

Overview

Two tremors of 5.2 and 5.7 on the Richter scale occurred in the vicinity of Banda Aceh in the last 24 hours. Seasonal wet weather also continues to impact on some relief operations including air activity and the accessibility of the main road system.

The Indonesian government has expressed its concern at the significant foreign military presence in northern Sumatra and pressure is being applied at the highest levels to have all foreign military forces out of the country by the end of March. The Indonesia military continues to exercise overall control of military resources in Aceh province to restrict travel and activity in areas where the security risk is considered to be the greatest.

Over 150 Red Cross and Red Crescent delegates are participating in the post tsunami operation in Aceh province. The majority are medical personnel (doctors/nurses), water and sanitation and logistics experts.

Coordination

The Indonesian Red Cross (Palang Merah Indonesia/PMI) and the Federation are cooperating with local authorities, local medical staff and other agencies working in affected areas of Aceh province. The government of Indonesia has established a Joint Disaster Management Centre with the United Nations to manage and coordinate international relief efforts and ensure that the government and the UN are working with the same information on the affected population. The government has provided a strategic planning document to the PMI from the appropriate ministry, which is being translated.

At the PMI/Federation/ICRC coordination meeting last night, it was decided to accelerate relief operations into three population centres along the northwestern coast. PMI volunteers are being flown by helicopter today to prepare for ongoing distributions, starting with 16 PMI volunteers into Lam No, 16 into Calang and four into Teunom. These volunteers are carrying their own food, water and tents in order to be as self-sufficient as possible in the early days of the set-up.

The FACT team leader has provided the PMI leadership in Banda Aceh with a draft organization chart of Federation functions in support of the emergency relief operation, which the national society will map to their own relief management functions so that communication and cooperation can be aligned to maximize efficiencies. Information is being exchanged between PMI and the Federation on what kind and size of boats are available, and what capacities are required so that the joint operation can scale up its relief and health activities to isolated communities along the northwest coast.

The Southeast Asia regional programme coordinator continues in the role of head of operations for the tsunami response in Jakarta. The coordination of arriving Red Cross and Red Crescent personnel and other visitors including reception and forward movement is being managed by the Federation delegation office in Jakarta when travel is officially authorized. A visiting programme beyond Jakarta cannot be guaranteed due to a shortage of dedicated transport to and within the field and lack of accommodation in Medan and in the field. This will ease over time but visiting programmes (other than official visits) are not accorded a high priority and it is recommended that visits be deferred for at least two weeks.

Security

Names, functions, location and travel movements of all Red Cross and Red Crescent personnel on Sumatra continue to be provided to PMI and to ICRC on a daily basis. Emergency operations continue unabated. However, the security situation and the military response to the situation are of some concern. The military is confining all movement to the populated areas of Banda Aceh, Aceh Besar district and Meulaboh. Any movement outside these areas is to be approved by the military and provided with an escort. These conditions have not been tested yet but are likely to interfere with the ongoing humanitarian relief effort. Phase 3 security protocols now apply in Banda Aceh where a curfew is in effect from midnight to 5 am, and phase 4 protocols are in effect in Aceh Besar district and the town of Meulaboh on the west coast.

Red Cross and Red Crescent action – objectives, progress, impact

Overall Goal: Up to 100,000 internally displaced and otherwise affected families (approximately 500,000 people) in western Aceh receive adequate and timely emergency humanitarian assistance over the next six months.

Updated information on the food distribution so far will be provided in the next operations update.

Objective 2 (logistics): PMI will have a strengthened supply chain capability and capacity to ensure timely transport of material and human resources to the areas of operation.

PMI and the Federation are discussing logistical reporting procedures in Banda Aceh to capture the necessary information on end-of-pipeline distribution to beneficiaries in the designated area of the northwestern coast between Banda Aceh and Meulaboh. ICRC is collaborating with PMI for relief operations on the northeastern coast.

The situation in Medan and Banda Aceh is still problematic for logistic operations, particularly with what is now acknowledged as a congestion of the air and land routes into Aceh Province. Options other than aircraft are being considered for the movement of bulk cargo. Due to potential problems with increasing volumes of truck traffic and

road serviceability, coupled with the difficulty of sustaining reliable air cargo schedules, sea transport is becoming the favoured mode for transportation of bulk cargo. Pulau Sabang, north of Banda Aceh is a potential air base/port facility for the combined operation. Lhokseumawe also has potential as a limited combined air base/port/road terminal facility but is not a viable option in the short term.

Two logistics officers specialized in setting up Rubb halls are in Jakarta today to place a large Rubb hall nearby the PMI headquarters to expand storage space for relief goods coming into Jakarta.

Air operations by helicopter of PMI staff and assessment team members continue today into Teunom, Lam No, Meulaboh and Calang. Air assets include two helicopters secured by the Federation for the duration of the emergency period, including a Sikorsky and a Bell 212, a Helimission helicopter used periodically, a Bell 427 that is rented as required, a Russian heavy cargo helicopter owned by the Lithuanian government, and a Super Puma donated by the Indonesian National Business Association (BUMN).

Small boats laden with blankets, tents and plastic sheeting for thousands of people depart today or are already on the way to Lam No and Calang. Additional medical supplies for the Japanese Red Cross basic health care unit (BHCU) are being transported by boat today to Meulaboh.

A Danish Red Cross logistics ERU team is also in operation. Details will be provided in the next update.

Objective 3 (health): primary health care service provided to the tsunami-affected communities and potential epidemics are prevented or adequately addressed.

Medical teams are arriving to boost the human resources of PMI/Federation activities – the Turkish Red Crescent is providing five doctors and 10 nurses (seven team members will arrive in Banda Aceh today), and a Swiss Red Cross medical team is scheduled to arrive today to support the emergency health field operations. The teams will be deployed to the most appropriate location after an initial briefing.

The psychosocial delegate and a PMI counterpart continue their visits to internally displaced person (IDP) camps in Banda Aceh, and another debriefing is scheduled for later today for PMI volunteers carrying out the evacuation of bodies. The Bahasa Indonesia version of stress management guidelines has been completed and will be distributed as of today during the volunteer debriefings.

Basic health care units (BHCU) operational in Aceh Province, January 2005

| BHCU | Location | BCHU staff | Other medical staff in the area | BCHU facilities | Patients per day |
|--------------|------------|---|---|--|------------------|
| German ERU | Teunom | 6 BCHU staff + local staff doctor, midwife, 2 nurses. | army medical teams; Malaysian NGO. | 9 tents (outpatient; lab; pharmacy; mother and child health care; registration; tents for staff) | 250-300 |
| Japanese ERU | Banda Aceh | | Details will be provided in the next operations update. | | |

The German Red Cross ERU reports that the numbers of severely injured patients being seen is very low. Ailments diagnosed include wounds sustained as a result of the tsunami, consequent respiratory tract infections caused by ingested saltwater and mud, as well as from the difficult living conditions exacerbated by the heavy rains. There have also been some cases of diarrhoea, but neither bloody nor watery. No cases of tetanus have been reported thus far. The vaccination status of the population approaches zero, due to a reluctance of the people to be inoculated.

Teunom was the focal point for regional health care services prior to the disaster, and the population from the surrounding area is starting to travel to the clinic seeking attention for typical day-to-day ailments. Outpatient services include malaria testing, and one case of diabetes has been diagnosed. Today, for the first time, a child was delivered in the BHCU. In plans to move from an emergency relief to a rehabilitation phase, the public healthcare centre will need to be rebuilt, and a proposal is forthcoming to address that requirement.

Objective 4 (water and sanitation): the spread/outbreak of infectious diseases is prevented through water and sanitation interventions.

**Red Cross and Red Crescent water and sanitation operations in Aceh Province
January 2005**

| Team | Location | Distribution/ litres | Means of distribution | Beneficiaries | Constraints |
|------------|-----------|---|---|--|--|
| Spanish RC | Meulaboh | 155,000 daily | 6 municipal trucks of 3,500 t capacity; 1 UN truck of 7,000l capacity | 4,000 families + 4 IDP camps, total est. population 45,000 | Water capacity exceeds means of distribution |
| French RC | Salamanga | 95,000 daily | by tap and tanker truck | By tap to 1,000 IDPs/ by tanker truck to 13,000 IDPs in 10 camps | - |
| | Sigli | 75,000 daily | - | 3,800 IDPs in 5 camps + water by tap | - |
| German RC | Teunom | Due to communication difficulties with the German Red Cross team, a more detailed update will be provided tomorrow. | | | |

The Spanish Red Cross water and sanitation team reports that four specialized water processing units have arrived in Meulaboh by cargo helicopter. Once operational, they will provide medical quality water to the hospital and clinics at a rate of 3,500 litres per hour with a total capacity of 14,000 litres per hour. Excess capacity will go to IDP camps. Extra trucks will be installed to deal with the extra capacity. Also, extra water storage will arrive to support the Japanese Red Cross BHCU team and PMI volunteer camp. The ERU is actively training 10 PMI volunteers to run the technical equipment.

Sanitation work will begin formal operations today. The first stage will be to begin organizing the clean-up of the garbage strewn about, and to commence vector control in the town and the IDP camps. ERU team members are working closely with PMI volunteers to determine garbage collecting points, safe locations for burning refuse and debris, and to decide best sites to start construction of latrines. PMI is taking the initiative to identify people to be trained for building the latrine structures. Spanish Red Cross health specialists are working with PMI staff and volunteers in Meulaboh to deliver basic health education.

The French Red Cross water and sanitation ERU will place 50 tanks with 3m³ capacity in IDP camps and organize increased transport capacity to deal with the extra supply. The team is in discussion with the Spanish Red Cross ERU team in Meulaboh about the construction of a permanent water distribution network, as a critical step in the reconstruction process for this devastated town. Two French Red Cross ERU specialists in water network planning and construction are currently in Meulaboh for discussions about the post-emergency phase.

Red Cross has been appointed by local authorities as the lead agency amongst the three agencies, including Oxfam and Samaritans Purse, to coordinate water and sanitation activities in Meulaboh. Cooperation between Red Cross personnel and local government authorities remains excellent.

Word of the fresh water source from Red Cross is starting to spread, and people are emerging from the hills to fill makeshift containers and are then returning. A shipment of jerry cans, as well as basic hygiene kits, is en route to Meulaboh.

Objective 5 (telecommunications): fast and reliable means of communication is secured in the areas of the relief operation.

Telecommunications remain difficult. Contact between FACT and ERU teams is mainly by satellite phone and is highly unpredictable.

Myanmar

Overview

Latest official government figures put the death toll at 59, with three people missing and 3,205 displaced. General uncertainty about the tsunami impact on Myanmar has now been cleared, partly due to a joint press release launched by the Tsunami Assistance Coordination Group (chaired by the Federation in Myanmar and including representatives of ICRC, Myanmar Red Cross Society (MRCS), UN organizations, MSF, World Vision, Care, Save the Children UK, PSI, ZOA, ADRA on 6 January providing consolidated information on affected populations and the death toll. As a result, the related media attention has decreased.

Coordination

A liaison group for coordination and information sharing between humanitarian agencies will be set up next week. The Federation will have a key role in ensuring cooperation and consolidation of findings from assessments conducted in affected areas.

Red Cross and Red Crescent action – objectives, progress, impact

Preparations are now under way for second assessments of mid- and long-term needs. MRCS has been assessing the situation in the most affected areas of Ayeyawaddy division, headed by the head of disaster preparedness and response division and the executive committee member responsible for disaster management. The team returned to Yangon on 12 January and their findings will be discussed and shared over the coming days. If necessary, MRCS and the Federation will carry out further assessments. Similar assessments are currently also under way, for example, by UNICEF and World Vision, on the traumatic stress reaction experienced by affected children.

Objective 1 (non-food): basic non-food needs of 1,000 affected families are met.

Objective 2 (replenishment of stock): relief stock in the Myanmar Red Cross warehouse pre-positioned for 10,000 families.

In-kind donations to the Federation appeal in Myanmar, January 2005

| Arrival | Transport means | Shipment | Donor |
|---------|----------------------------------|---|--------------------|
| 8 Jan | Charter flight to Yangon airport | 10,750 blankets | German Red Cross |
| 10 Jan | Charter flight to Yangon airport | 8,000 buckets, 8,640 blankets, 19,432 foldable jerry cans * | Canadian Red Cross |

*Jerry cans were intended for Sri Lanka but offloaded by mistake in Yangon (by the shipment agency). Canadian Red Cross has agreed to leave the jerry cans for replenishment of Myanmar Red Cross warehouses.

All received items are currently stored in the MRCS headquarters/Federation warehouse, but a better temporary storage facility is urgently needed. Local fundraising continues – a local travel agent donated 300 pieces of clothing to the Federation yesterday, 12 January with possible further donations. The French Embassy has also expressed an interest to support smaller scale long-term rehabilitation efforts in the areas of health, water and sanitation, children, and restoration of livelihoods. The Federation delegation will suggest proposals for support by the end of next week. The Singapore Embassy in Myanmar has announced that Singapore Red Cross will earmark SGD 200,000 (CHF 144,200) of their cash contribution to the forthcoming Federation Tsunami Appeal to Myanmar.

On 11 January, the Federation staff met with WFP. The current MRCS distribution of WFP-donated rice in Ayeyawaddy division, as planned, will be for the immediate short-phase emergency distributions only. For the longer-term needs and food distribution, WFP will work with one of their more regular NGO partners. It was also agreed that the findings of the current MRCS assessment mission to Ayeyawaddy will be shared with WFP as soon as the team is back in Yangon and, likewise, that the current external WFP assessment team will share and discuss their findings with the Federation and the national society.

MRCS has received direct in-kind contributions, including 5,000 kg of rice, 3,000 kg of sugar, 4,000 tins of fish, 7,000 tins of beans, 49 bales of blankets and 100 tents from the Iranian Red Crescent, delivered last weekend (8 - 9 January).

Recovery and Rehabilitation

Short-term recovery and rehabilitation phase

The mechanisms are already being set in place to carry out an assessment of short-term recovery needs. Recovery assessment teams are being deployed to Sri Lanka and Indonesia to ensure that in these two worst-affected countries the national societies and the Federation personnel begin at this stage comprehensive assessment and planning for short-term recovery with projects to be completed prior to the end of 2005. Two senior recovery assessment coordinators (RACs) have been appointed, one for each team. Terms of reference for the teams and the RACs have been developed which require consultation with all stakeholders in the assessment process. Country-specific plans of action for up to 31 December 2005 will be developed within three weeks. Some components of the plans will be incorporated in the fully coordinated and combined Red Cross and Red Crescent international appeal to be launched in February. The same assessment task will need to be carried out in other tsunami-affected countries by the country and/or regional delegations.

Outstanding Needs

The following table summarizes the major outstanding material needs in the affected countries under this Revised Preliminary Appeal. Any national societies wishing to contribute to the relief pipeline are kindly requested to contact the logistics department at the Federation Secretariat in Geneva.

| Country | Major outstanding needs | |
|-----------|---|---|
| Indonesia | 174,400 bed sheets 79,200 blankets 525,000 food parcels | 57,800 kitchen sets 20 dispensary tents 98,500 hurricane lamps. |
| Sri Lanka | 45,000 baby kits 98,500 bed sheets 94,000 jerry cans 33,000 kitchen sets | 20,000 cooking stoves 52,000 mosquito nets 240,000 sleeping mats 200,000 women's underwear |
| Maldives | 10,000 mosquito nets | |
| India | 25,000 mosquito nets, 2,000 family tents | |
| Myanmar | 8,500 kitchen sets, 4,700 tarpaulins | |
