ASIA: EARTHQUAKE & TSUNAMIS

27 January 2005

The Federation's mission is to improve the lives of vulnerable people by mobilizing the power of humanity. It is the world's largest humanitarian organization and its millions of volunteers are active in over 181 countries.

In Brief

Revised Preliminary Appeal No. 28/2004; Operations Update no. 30; Period covered: 26-27 January 2005; Appeal coverage: 94.7% ([Click here to view the provisional contributions list attached, also available on the Federation's website](#)).

Appeal history:

- Preliminary appeal launched on 26 December 2004 for CHF 7,517,000 (USD 6,658,712 or EUR 4,852,932) for 6 months to assist 500,000 beneficiaries.
- Disaster Relief Emergency Funds (DREF) allocated: CHF 1,000,000.
- Revised Preliminary Appeal issued on 29 December 2004, for CHF 67,005,000 (USD 59,152,246 or EUR 53,439,988) for 2 million beneficiaries for 6-8 months.
- The Preliminary Appeal was originally launched titled "Bay of Bengal: Earthquake and Tsunamis". The title was subsequently changed to "Asia: Earthquake and Tsunamis" in the Revised Preliminary Appeal launched on 29 December 2004.
- Operations update No. 16 issued on 12 January 2005 revised the Revised Preliminary Appeal 28/2004 budget to CHF 183,486,000 (USD 155,286,000 or EUR 118,669,000) with programme extensions for Sri Lanka, Indonesia, the Maldives and East Africa.

Highlights of the Day:

- The Indonesian Red Cross is postponing the Partnership Meeting, scheduled to be held in Bali on 13-16 February, to mid-March (date to be announced).
- A Movement-wide tsunami coordination meeting is planned for 14 February in Jakarta at which the Federation's Recovery Assessment Team will present its findings and provide an overall framework for the mid-term recovery phase.
- The ERU in Meulaboh, run by the Spanish Red Cross, has distributed over four million litres of water since deploying. It also provides specialized water to the local hospital and the basic health care unit run by the Japanese Red Cross Society.
- The Sri Lanka Red Cross Society officially announced today it will build 15,000 permanent homes as part of its housing reconstruction project.
- Thailand's ministries will be hosting a meeting in Phuket on 28-29 January aimed at mapping out a work plan for establishment of an early warning system in the Indian Ocean. Hosted by regional ministerial representatives, representatives from more than 40 countries and various UN and multi-lateral organizations are expected to attend.

All International Federation assistance seeks to adhere to the [Code of Conduct](#) and is committed to the [Humanitarian Charter and Minimum Standards in Disaster Response](#) in delivering assistance to the most vulnerable. For support to or for further information concerning Federation programmes or operations in these or other countries, or for a full description of the national society profiles, please access the Federation's website at <http://www.ifrc.org>

Background

The magnitude 9.0 earthquake that struck the area off the western coast of northern Sumatra on Sunday morning, 26 December 2004, at 7:59 am local time (00:59 GMT) triggered massive tidal waves, or tsunamis, that inundated coastal areas in countries all around the Indian Ocean rim – from Indonesia to Somalia. Sri Lanka, the Indonesian province of Aceh, four states of southern India, the Maldives, coastal areas of Thailand, Malaysia, and Myanmar were the most severely affected. The earthquake epicentre was located at 3.30 N, 95.78E at a depth of 10 kilometres. The area is historically prone to seismic upheaval due to its location on the margins of tectonic plates. However, tidal waves of this magnitude are rare and therefore the level of preparedness was very low.

Summary of the human toll caused by the tsunami as of 27 January

Countries	Dead	Missing	Displaced	Homeless	Sources
Indonesia*	228,000	-	n/a	617,159	Government
Sri Lanka	30,957	5,644	396,295	480,000	Government
India	10,749	5,640	647,599	20,000	Government
Maldives	82	21	21,663	n/a	Government
Thailand	5,388	3,132	n/a	n/a	Government
Myanmar	90	10	n/a	3,200	Government
Malaysia	68	12	n/a	4,296	Delegation
East Africa	314	n/a	52,000	n/a	Government
Total	275,648	14,459	>1,117,557	>1,124,655	

*In Indonesia only, the number of dead includes persons previously listed as missing.
Note: East Africa covers tsunami-affected countries of Kenya, Madagascar, Seychelles, Somalia and Tanzania.

Thousands of staff, relief and medical personnel, and volunteers of the Red Cross and Red Crescent societies of the tsunami-affected countries have provided a vital initial response, in search and rescue, clean-up, providing temporary shelter and immediate relief assistance, emergency medical services, psychological first aid and tracing. It is estimated that almost 12,000 Red Cross and Red Crescent volunteers and 76 relief and medical teams have been mobilized in the disaster-affected areas.

The Federation immediately launched a Preliminary Emergency Appeal on the day of the disaster with a focus on Sri Lanka, Indonesia and the Maldives. On 3 January 2005, the ICRC launched budget extensions additional to its 2005 Emergency Appeal for Indonesia and Sri Lanka. Along with initial support from the country and regional delegations, the Federation deployed within 24-72 hours three [Field Assessment and Coordination Teams \(FACT\)](#) and 18 [Emergency Response Units \(ERU\)](#) in the sectors of water and sanitation, health care, aid distribution, telecommunications, and logistics/transportation to Sri Lanka, Indonesia and the Maldives.

A total of 102 relief flights have now arrived in the various affected countries and a further 23 flights are in the Federation relief pipeline, making a total of 125 relief flights coordinated through the Federation.

The Federation and the ICRC in Geneva are currently working on an organizational framework for Movement coordination in the tsunami operations. A note has been sent out to national societies and delegations on this today, for consultation. It is expected that the framework, which will set in place strong platforms for coordination, will be finalized shortly, and a final note will be sent out by the Federation and the ICRC next week.

Operational Developments

Indonesia

Overview

With children returning to school yesterday for the first time since the tsunami, the scope of the disaster was yet again made graphically apparent. Banda Aceh High School No.1 was still filled with mud, as the children milled around in the school yard. Some wore their uniforms, but most were in donated clothing. Books and desks were drying in the open air. Of 1,200 students enrolled before, only 800 showed up. In another school, the numbers were even starker. Only 300 of nearly 900 enrolled students turned up. Many of them have no home to go back to at the end of the day, only the temporary shelters set up in the internally displaced person (IDP) camps. It is now estimated that there are 417,000 homeless people across the affected area in Aceh.

The psychological impact of so much displacement and loss is difficult to comprehend. The World Health Organization (WHO) estimates that up to 200,000 people - or 5 per cent of tsunami survivors - could develop severe depression and other long-term mental disorders such as anxiety and sleep disorders. Up to half a million may require some form of psycho-social support.

The secondary impact of the disaster on the local economy is also becoming apparent. Prices in Banda Aceh are being affected in a variety of often unpredictable ways. Media reports indicate that, for example, the price of salt is up because coastal salt makers have been wiped out. People are not buying fish or beef because of fear of disease. And houses are in huge demand - both on the part of displaced locals and on the part of the large influx of foreign aid workers - leading to a rise in rental rates. Making matters more difficult, there has also been a sharp increase in the price of much-needed building materials. Furthermore, the competition for English-speaking interpreters is fierce. Local companies are having a difficult time hanging on to what is left of their workforce, in the face of the higher salaries being offered by the international organizations, the media and aid agencies.

The government is said to be keeping a close watch on the price of staples and is considering intervening in order to stabilize the price of rice, sugar, flour and palm oil in particular. Part of the problem, according to Indonesia's food logistics agency, is the demand for truck freight, which many agencies are competing for in order to deliver relief supplies into Banda Aceh.

Coordination:

The National Board of the Indonesian Red Cross (Palang Merah Indonesia/PMI) has decided to postpone the Partnership Meeting, which was scheduled to be held in Bali on 13-16 February. A new date for the meeting has not been set, but it is expected to be held in mid-March. Nevertheless, a Movement tsunami coordination meeting is being planned for 14 February in Jakarta at which the Federation's Recovery Assessment Team (RAT) will present its findings and provide an overall framework for the mid-term recovery phase. Representatives of National Societies interested in supporting the rehabilitation and reconstruction phases of the Aceh operation will also be invited to convey their ideas and proposals. This will follow on an earlier informal information-sharing

meeting being organized by RAT on 4 February, at which the team will present its preliminary findings and draft recommendations.

PMI has now elaborated an organizational structure and standard operating procedure, aimed specifically at coordinating its response to the tsunami emergency. As part of this, the PMI operations centre will relocate from Medan to Banda Aceh.

This is in line with the reorganization of the Federation's own operational structure, which is also being relocated to Banda Aceh as the hub for overall emergency operations, supported by sub-offices based in Meulaboh and Medan, as well as the logistics hub in Batam.

An overall organizational framework for Red Cross and Red Crescent Movement (the Movement) coordination in Indonesia is being established to jointly manage its humanitarian response to the tsunami. This has been developed in close cooperation between PMI, the Federation and ICRC and will allow the Movement to respond to immediate needs as well as put in place plans for longer-term disaster-preparedness, rehabilitation and reconstruction. All Movement partners have expressly been requested to work within the proposed Movement coordination framework. Movement coordination will be managed on three levels: strategic, operational and technical. Movement Service Centres will be put into place, in order to meet the immediate and longer-term needs of PNSs in-country, providing both administrative and logistics support. In this regard, service agreements will be entered into with interested PNSs.

Security:

According to the planned organizational framework for Movement cooperation (see above), the ICRC, together with PMI, is responsible for establishing and maintaining updated security guidelines. The physical movement of PNSs and the Federation, including systems of notification, are to be coordinated by ICRC in partnership with PMI.

Red Cross Red Crescent action:

A number of Federation delegates and FACT team members continue to debrief in Jakarta as their missions come to an end. The FACT reporting delegate is handing-over Banda-Aceh based reporting to a newly arrived delegate, on loan from the Asia Pacific Regional Reporting Unit, who will also be based in Banda Aceh.

Overall Goal: Up to 100,000 internally displaced and otherwise affected families (approximately 500,000 people) in western Aceh receive adequate and timely emergency humanitarian assistance over the next six months.

Objective 1 (emergency relief): Basic supplementary food and non food needs of the 500,000 IDP (Internally Displaced People) and most vulnerable beneficiaries are met so that they can start rebuilding their future.

Progress/ Achievements

The Federation Relief Coordinator and ICRC met to discuss the shipment of family kits. It was agreed that kits would be shipped early next week, in quantities consistent with the relief distribution plan for Western Aceh (4,200 - Lamno, 3,400 – Calang, 3,200 – Teunom, 10,600 Meulaboh).

Federation relief delegates, along with PMI and the Swedish ERU water and sanitation delegate, conducted a follow-up assessment in Patek, which is north of Calang and inaccessible by road. An estimated 400 IDP families (1,120 individuals) from 10 devastated communities in Patek are being hosted by families in neighbouring villages. Both the school and medical clinic in Patek were destroyed. These were used centrally by the villages in the area. Non-food relief items (hygiene kits, kitchen kits, tarps and blankets) will be delivered by helicopter within the next three days. There is also a need for water and sanitation follow-up.

Assessment trips to Arongan and Suakseumaseh (north of Meulaboh) and other areas to the south of Meulaboh are being planned between 29 – 31 January.

Lam No

The Federation and PMI have rented a fourth vehicle, in order to facilitate the transport of PMI volunteers to surrounding communities and the transport of relief goods.

Calang

The Federation and PMI are coordinating plans with other agencies to supply IDPs in Panga (south of Calang) with relief supplies. The relief delegate and PMI have been exploring possible access routes for delivery of relief goods. With two bridges down, IDPs are currently walking six kilometres to Calang to get supplies. Due to PMI shift rotations, there were no distributions on 25-26 January.

According to reports from Calang, the hygiene kits are distinct from other goods being distributed and are being very well received by IDPs.

Teunom

PMI volunteers continue to assess surrounding areas and identify target beneficiaries. A Rubb Hall is still needed to provide extra storage space, prior to the delivery of ICRC family kits.

Meulaboh

One Rubb Hall is now in place to receive relief items. A shipment of 1,200 tents, 4,500 kitchen sets, 5,000 jerry cans, 5,000 tarps and 5,000 blankets is en route from Medan to Meulaboh.

Impact

Relief goods are flowing more smoothly through the pipeline, with a steady stream of non-food items reaching the target communities. Hygiene kits are being particularly well-received by IDPs, according to reports from the field. Relief distribution figures are currently being compiled from the Banda Aceh operations base.

Constraints

The regular shift rotation of PMI volunteers is posing some difficulties in continuity in terms of information gathering. The large area being covered by relief operations has led to some difficulties in collating exact numbers of beneficiaries, however the team is working with PMI to develop a comprehensive and cohesive system of reporting.

Objective 2 (logistics): PMI will have a strengthened supply chain capability and capacity to ensure timely transport of material and human resources to the areas of operation.

Progress / Achievements**Helicopter flights 26 January 2005**

Aircraft	Destination	Cargo
Sykorsky	Meulaboh + Teunom Teunom Lamno	GRC watsan ERU equipment and 6 passengers from IFRC and PMI 8 members of the GRC Watsan ERU team Relief supplies: plastic sheets, jerry cans and food for PMI volunteers
Bell 212 #1	Teunom Calang	Relief supplies: family kits Relief supplies: family kits
Bell 212 #2	Calang	Relief team assets
Helimission	Teunom	Relief supplies: family kits

Boat trips 25 January 2005

Water craft	Destination	Cargo
7 ton	Teunom	500 hygiene kits, 145 tents, 300 tarpaulins
7 ton	Calang	500 hygiene kits, 241 tents, 200 tarpaulins

7 ton	Lam No	500 hygiene kits, 175 tents, 90 tarpaulins
-------	--------	--

Boat trips 26 January 2005

Water craft	Destination	Cargo
7 ton	Calang	500 hygiene kits, 241 tents, 200 tarpaulins
7 ton	Lam No	550 hygiene kits, 80 tents, 2200 jerry cans, 1760 blankets

Impact

A coordinated logistics operation and team is now in place, with the capability to deliver and store 1,000 metric tons of relief goods per week, as well as ERU equipment and support personnel, using both air and sea routes.

Supply lines have been established to four distribution points (Lamno, Calang, Teunom and Meulaboh), through two marshalling areas (Meulaboh and Banda Aceh), supported by a national and international hub (Medan and Batam, respectively).

Constraints

Objective 3 (health): primary health care service provided to the tsunami-affected communities and potential epidemics are prevented or adequately addressed.

Progress / Achievements**German Red Cross BHCU – Teunom**

The GRC BHCU has seen a total of 2,121 patients, as of 26 January, and there are eight in-patients. A team rotation is now underway.

Japanese Red Cross Society BHCU – Meulaboh

The JRC BHCU clinic is now working, with the out-patient department seeing 49 patients, most of whom show signs of chronic disease unrelated to the disaster. The number of patients is increasing steadily, as is the number of IDPs in the camp, which now totals 1,756.

The Japanese team continues to support the hospital: 17 post-operative patients were seen on 26 January, in addition to two consultations and one surgery.

There is no mobile clinic this week. The JRC team is in rotation, with a one doctor, four nurses and two technicians scheduled to arrive today.

Vaccination campaigns were carried out between 5 and 21 January. A total of 1,601 people were vaccinated for tetanus (including 453 IDPs, 135 PMI volunteers, 14 JRCS staff and 1,000 outpatients at the hospital). In addition, a total of 214 people were vaccinated against measles, over a period of five days and covering five IDP camps.

A medical team from French RC traveled to Meulaboh in order to assess how best to utilize the French civil/military hospital, which they are taking over.

Impact

RCRC	Communities served	Activities	Beneficiaries	Constraints / Comments
German RC ERU BCHU (as from 10/01/05)	Teunom	<ul style="list-style-type: none"> ▪ Basic health care services 	<ul style="list-style-type: none"> ▪ Serving a population of up to 20,000 ▪ 100-150 patients / day (OPD) – cumulative (10-26/01): 2,121 	Team of 6, joined by Swiss RC (2) on 16 Jan. + PMI volunteers

Japanese RC ERU BCHU (as from 29/12/04 with limited equipment)	Meulaboh + outlying communities (Ache Barat, Nagan Raya)	<ul style="list-style-type: none"> ▪Medical support to Cut Nyak Dhein hospital (ICU, ER, OT) ▪Needs mapping in outlying villages ▪Mobile health clinic to IDP camps ▪Measles + tetanus vaccination 	<ul style="list-style-type: none"> ▪Up to 300 patients / day overall at the hospital. ▪ The health clinic began operating in the IDP camp on 26 January. ▪ Vaccinations: tetanus: 1602 measles: 214 	<p>Initial loss of medical equipment and supplies (reportedly damaged or looted). New equipment coming in with change-over team.</p> <p>Team change-over in process (24/01.05)</p>
ICRC Hospital (as from 16 January)	Banda Aceh	Referral Hospital	100 patients / day	Also setting up a camp for discharged patients (up to 400)
PMI	Banda Aceh, Lam No, Calang, Simeulue Meulaboh	<ul style="list-style-type: none"> ▪Mobile health teams ▪ 34 doctors and 28 paramedics / nurses ▪ Doctor working with BCHU + 30 PMI volunteers 	<p>First week:</p> <ul style="list-style-type: none"> ▪ Meulaboh health post – 1388 patients ▪ Banda Aceh health post – 1266 patients + 220 patients daily. 	<p>8-12 teams operational at any one time.</p> <p>Other teams deployed directly by PMI chapters to affected area.</p>

Constraints:

There is a lack of translators to work alongside the JRCS BCHU, which constrains the number of patients the team is able to see.

Objective 4 (water and sanitation): the spread/outbreak of infectious diseases is prevented through water and sanitation interventions.**Progress / Achievements**

UNICEF is the lead agency in overall coordination of water and sanitation activities for the post-tsunami emergency operation. The agency has now divided the area into two zones of responsibility – with the Banda Aceh office taking care of the city and the coast down to Calang, while the Meulaboh office will deal with the area from Meulaboh north to Calang. The Federation is coordinating and supporting this with its teams in various locations.

Following assessment in various communities along the west coast, it has now been decided to split the incoming Austrian/Swedish ERU team into two components: one to serve Lamno and the other Patek, where there are estimated to be 1,500 IDPs requiring assistance. Field deployments are being planned over the coming days.

Meulaboh

The Spanish ERU team has reached the four million litres mark for water distributed. The arrival of two water tankers from Spain will further increase the ERU's production capacity. Misunderstandings with the local water board, as reported previously, have now been resolved to the benefit of the operation. Specialized water continues to be supplied to both the Japanese BCHU and the local hospital.

Teunom

An estimated 1,500 beneficiaries are being supplied directly with drinking water, in addition to those people accessing the BCHU site. The replacement GRC ERU team has now arrived in country and is making its way to Teunom.

Sigli / Salamanga

The 40 tanks with 3,000-litre capacity are being set up in the IDP settlement areas, as distribution points for community access. An additional six watering trucks and 40 tanks of 3,000-litre capacity have been requested, due to the increased demand for water. An additional eight members have now joined the team, following the first rotation. This will contribute to an increase in activities and water production.

A French RC doctor has also joined the team, to sort unsolicited medical goods and coordinate with the PMI branch in terms of the best use and distribution of these supplies.

Impact

Water is being supplied on a regular basis to an estimated beneficiary population of over 75,000 people.

Red Cross Water and Sanitation Operations in Aceh province, 25 January 2005

Water and Sanitation ERU	Distribution / liters	Means of Distribution	Beneficiaries	Constraints / Comments
Spanish RC (Meulaboh)	<ul style="list-style-type: none"> ▪ Up to 300,000 L mass water / day. ▪ All 5 specialized water units in operation (23/01). Producing 40,000L ▪ Team reached the 4.5 million L distribution mark on 26/01 	6 municipal trucks of 3,500t capacity; 1 UN truck of 7,000l capacity; Arrival of 2 water 15,000L tankers from Spain.	4,000 families + estimated 20,000 IDPs in 4 camps + specialized water to Japanese RC BHC team + other agencies as requested.	Water capacity exceeds means of distribution
French RC (Salamanga and Sigli)	90,000 L / day + 70,000 L per day	<ul style="list-style-type: none"> ▪ By tap and tanker truck. Four water tankers arrived (23/01) + 2 local-hire flat bed trucks ▪ 40 x 3000l tanks to be used for distribution points 	10,000 IDPs (set to increase with installation of distribution points)	Requisition of material for latrines construction, coordinated through logistics. Team in rotation. Only 3 members currently in place.
German RC (Teunom)	35,000 L/ day	5,000 L + 1500L bladder tanks set up in town	At least 1,500 people benefiting from the water, as well as serving BHCU, which aims to meet the needs of 20,000 beneficiaries.	
Swedish / Austrian RC (Lamno / Patek)				Assessments finalized. The team will be located in both Lamno and Patek,

Constraints

There is still a lack of administrative support to the team in the field. This is being addressed by the Admin/HR delegate, recently arrived incountry.

Objective 5 (telecommunications): fast and reliable means of communication is secured in the areas of the relief operation.

Progress / Achievements

The Telecoms Coordinator is in the field, reviewing operations at various sites. The Austrian RC ERU's telecoms delegate has agreed to serve as the Federation's Telecommunications Delegate for next month, providing much

needed assistance to the Telecommunications Coordinator in establishing fully functioning communications systems in all operational locales.

A successful meeting was held between PMI, the Federation and two local companies regarding the setting-up of a radio communications network. The companies have offered to provide technicians and some communications equipment and will also assist in the planning of the entire radio set-up linked to the emergency operation. In addition, the Coca-Cola Company has offered to provide HF and VHF radios to RCRC. PMI will undertake an assessment of its VHF equipment requirements for the west coast of Aceh by 31 January.

This will enable the setting up of a VHF network for the Federation's operations in Banda Aceh and Meulaboh, linked to security requirements. VHF and HF will also be set-up in North Sumatra and Jakarta.

Impact

This is the first important step in providing PMI with radio communications nation-wide.

Sri Lanka

Overview

The Sri Lanka Red Cross Society (SLRCS) attended a ceremony today to officially announce its housing reconstruction project to build 15,000 permanent houses in the country, officiated by the President of Sri Lanka. Present at the ceremony were the SLRCS President as well as the Federation's country representative.

Relief operations continue in the country, supported by the Federation and the ICRC. The American Red Cross' ERU has begun relief distributions in the eastern district of Ampara, in coordination with the ICRC. It had already established a distribution base in the southern city of Galle.

With over 5,500 people reported still missing (as of 20 January), the tracing and re-establishing family links programme (RFL) by the ICRC will be necessary for quite some time. The 24-hour, seven-day RFL call centre has been maintained by the ICRC, supported by 15 volunteers dealing with tracing and registration of missing people.

For maps and reports on the general background of the disaster in Sri Lanka please refer to <http://www.lk.undp.org/ndmc/>

Coordination

In addition to the National Society, more than 200 delegates/staff are currently working in Sri Lanka comprising the Federation (country delegation, field assessment and coordination team, recovery assessment team, and emergency response units), the ICRC and partner national societies (PNS). Productive discussions have been held over the past week between the Movement coordinator and several PNSs based in Sri Lanka, including the German, Maltese, French, and Netherlands Red Cross societies, with progress made in improving coordination mechanisms between PNSs and the Federation.

Red Cross and Red Crescent action - objectives, progress/achievements, impact, constraints

Overall Goal: Up to 40,000 families (about 200,000 people) in the south of the country receive immediate relief, shelter, health and care, and community support over the next six months.

Objective 1 (water and sanitation): Adequate sanitation and water supply provided to a selected number of temporary shelters/welfare centres, and water and sanitation systems to serve the affected population.

Progress/Achievements:

The table below reflects the progress of Sri Lanka Red Cross and emergency response units (ERUs) in water, sanitation and hygiene improvement activities, to date.

Red Cross/Red Crescent	Location	Work carried out to date	Future plans
French Red Cross	Ampara district	- cleaned 1500 wells	To continue similar activity in

supporting the SLRCS Ampara branch		<ul style="list-style-type: none"> - between Kalmunai and Maruthaiminei - repaired water network and supply water in the same area 	this district
Federation supporting the SLRCS with an emergency water ERU and a mass water distribution ERU	Ampara district	<ul style="list-style-type: none"> - water treatment plant ERU (distributing avg. 120,000 litres/day to a total population of 34,000); - Cleaned approx 100 wells of a targeted 1,000 wells - Distribution system of 9 tanks of 11 m³ and 1 tank of 70 m³ 	<ul style="list-style-type: none"> - Continue well cleaning activities; - Construction and rehabilitation of wells and latrines in the Pottuvil/Komari area
SLRCS	Matara district	<ul style="list-style-type: none"> - Cleaning of 150 wells 	
SLRCS	Country wide	<ul style="list-style-type: none"> - The SLRCS operates 12 water bowsers throughout the country 	
Spanish Red Cross supporting the SLRCS in sanitation and livelihood programme	Galle and Kalutara district	<ul style="list-style-type: none"> - Red Cross volunteers and people from the affected families clearing debris at household and the community levels - Affected people receive cash for relief work to support livelihood. 	<ul style="list-style-type: none"> - Provide support to the affected population in sanitation and livelihood sectors

Objective 2 (shelter): Temporary shelter provided to up to 15,000 families (about 75,000 people) whose houses have been destroyed and have no extended family to live with.

Progress/Achievements:

The American Red Cross' ERU located in Pottuvil has started its first distributions through SLRCS in the district of Ampara, providing 18 family tents and 666 tarpaulins to some 350 families on its first day of operation (some families receive one or two tarpaulins depending on the size, usually 16 square meters per family). Meanwhile, distributions in the southern coastal towns of Sri Lanka continue to reach families in need of relief goods, with items such as kerosene stoves and mosquito nets, in the pipeline.

Objective 3 (immediate livelihood restoration): The minimum livelihood requirements provided for up to 40,000 families (about 200,000 people) whose houses have been destroyed and have lost their belongings.

Progress/Achievements:

Excellent links have been established by the American Red Cross' ERU with the local SLRCS branch in Ampara. The branch has mobilized volunteers and provided counterparts for the relief and logistics teams. Distributions started today in Pottuvil, with nearly 350 families in the east coast of Sri Lanka receiving non-food relief items (NRFI) including water containers, kitchen sets, hygiene kits, blankets and bed sheets. The plan is to continue every day for the next week as future plans are developed.

Discussions are underway by the Colombo-based British Red Cross ERU with a local airline to shuttle Red Cross personnel to Ampara on a weekly basis. Lanka Air is also looking at the possibility of landing planes in the lagoon next to Pottuvil (all their planes can land on water), which would save on airport charges and speed up the delivery time of relief items to Pottuvil, some two hours by road from Ampara.

Constraints: The American Red Cross' ERU relief and logistics teams in Ampara as well as the local SLRCS branches have a shortage of vehicles. Two vehicles from Colombo are to be sent to the region to assist in the relief activities. The difficulty in hiring vehicles makes this a priority.

Capacity of the National Society

Key staff in the three Federation warehouses in Colombo, Galle and Ampara are being trained by the American Red Cross' ERU so that they can take over some of the duties currently being performed by delegates. On the whole, the American Red Cross' ERU is looking to train local staff for long-term logistics positions and have provided information including positions required, duration, and job descriptions to the Federation's delegation for the recruitment process.

Prior to distributions in the eastern district of Ampara, the SLRCS and American Red Cross' ERU trained 40 new and existing volunteers in relief distribution as well as the Movement's principles.

Communications – Representation, Advocacy and Public Information

Federation information delegates and the media department of the SLRCS continue to provide media coverage, photo exchange, stories and interviews to the local and international media.

Thailand

Overview

Following up on intentions outlined at Kobe, Thailand's ministries will be hosting a meeting in Phuket on 28-29 January with a view to mapping out a work plan for the establishment of an early warning system in the Indian Ocean. This will be hosted by regional ministerial representatives and will be attended by representatives from more than 40 countries. Organizations expected to take part include the Asian Disaster Preparedness Center, the United Nations Special Coordinator for Tsunami Relief, the Economic and Social Commission for Asia and the Pacific, the United Nations Development Programme, the World Meteorological Organization, and the International Tsunami Information Center.

Coordination/Cooperation

On 25 January, the Honorary Thai Consul General in Melbourne visited the Thai Red Cross to inform that at least AUD 100,000 (CHF 91,760) of collected donations from their Thailand Disaster Fund will be handed over to the Thai Red Cross to support the relief and rehabilitation work in the tsunami affected areas.

Outstanding Needs

Human Resources

The recruitment of Federation delegates for Sri Lanka, Indonesia, Maldives and for the Federation's office in New York continues, and 21 posts remain to be filled, as detailed below. The recruitment of head of operations for Indonesia is extremely urgent. The recruitment for a logistics coordinator for the Banda Aceh operations centre (with strong procurement skills and knowledge of Federation systems) is also an urgent priority.

Place of assignment	Positions to be filled
Sri Lanka	Logistics coordinator, organisational development delegate, recovery programme coordinator, water and sanitation coordinator
Indonesia – Jakarta	Head of operations, recovery programme coordinator
Indonesia – Banda Aceh operations centre	Programme coordinator, administration delegate, logistics coordinator, relief coordinator, relief delegate, health coordinator, water-sanitation coordinator, IT delegate, psychosocial delegate
Indonesia – Medan sub-office	Head of office, relief delegate
Indonesia – Meulaboh sub-office	Head of office, water-sanitation delegate, health delegate
Maldives	Construction delegate
New York	UN liaison delegate

Relief Needs

The following table summarizes the major outstanding material needs in the affected countries under this Revised Preliminary Appeal. Any national societies wishing to contribute to the relief pipeline are kindly requested to contact the logistics department at the Federation secretariat in Geneva (contact details on Page 2 of this update).

Country	Major outstanding needs	
Indonesia	42,500 hurricane lamps	37,840 kitchen sets 21,799 family tents 8 dispensary tents 77,334 length of rope
Sri Lanka	73,200 jerry cans 33,055 kitchen sets 225,000 sleeping mats	20,000 cooking stoves 200,000 women's underwear
Myanmar	8,500 kitchen sets
