ASIA: EARTHQUAKE & TSUNAMIS

16 January 2005

FOCUS ON INDONESIA

The Federation's mission is to improve the lives of vulnerable people by mobilizing the power of humanity. It is the world's largest humanitarian organization and its millions of volunteers are active in over 181 countries.

In Brief

Revised Preliminary Appeal No. 28/2004; Operations Update no. 20; Period covered: 15-16 January 2005; Appeal coverage: 68.7% ([Click here to view the provisional contributions list attached, also available on the Federation's website.](#))

Appeal history:

- Preliminary appeal launched on 26 December 2004 for CHF 7,517,000 (USD 6,658,712 or EUR 4,852,932) for 6 months to assist 500,000 beneficiaries.
- Disaster Relief Emergency Funds (DREF) allocated: CHF 1,000,000.
- Revised Preliminary Appeal issued on 29 December 2004, for CHF 67,005,000 (USD 59,152,246 or EUR 53,439,988) for 2 million beneficiaries for 6-8 months.
- The Preliminary Appeal was originally launched titled "Bay of Bengal: Earthquake and Tsunamis". The title was subsequently changed to "Asia: Earthquake and Tsunamis" in the Revised Preliminary Appeal launched on 29 December 2004.
- Operations update No. 16 issued on 12 January 2005 revised the Revised Preliminary Appeal 28/2004 budget to CHF 183,486,000 (USD 155,286,000 or EUR 118,669,000) with programme extensions for Sri Lanka, Indonesia, the Maldives and East Africa.

For further information specifically related to this operation please contact:

All International Federation assistance seeks to adhere to the [Code of Conduct](#) and is committed to the [Humanitarian Charter and Minimum Standards in Disaster Response](#) in delivering assistance to the most vulnerable. For support to or for further information concerning Federation programmes or operations in these or other countries, or for a full description of the national society profiles, please access the Federation's website at <http://www.ifrc.org>

Background

The magnitude 9.0 earthquake that struck the area off the western coast of northern Sumatra on Sunday morning, 26 December 2004, at 7:59 am local time (00:59 GMT) triggered massive tidal waves, or tsunamis, that inundated coastal areas in countries all around the Indian Ocean rim – from Indonesia to Somalia. Sri Lanka, the Indonesian province of Aceh, four states of southern India, the Maldives, coastal areas of Thailand, Malaysia, and Myanmar were the most severely affected. The earthquake epicentre was located at 3.30 N, 95.78E at a depth of 10 kilometres. The area is historically prone to seismic upheaval due to its location on the margins of tectonic plates. However, tidal waves of this magnitude are rare and therefore the level of preparedness was very low.

Thousands of staff, relief and medical personnel, and volunteers of the Red Cross and Red Crescent societies of the tsunami affected countries have provided a vital initial response, in search and rescue, clean-up, providing temporary shelter and immediate relief assistance, emergency medical services, psychological first aid and tracing. It is estimated that over 5,000 Red Cross and Red Crescent volunteers and 76 relief and medical teams have been mobilised in the disaster-affected areas.

The Federation immediately launched a Preliminary Emergency Appeal on the day of the disaster with a focus on Sri Lanka, Indonesia and the Maldives. On 3 January 2005, the ICRC launched budget extensions additional to its 2005 Emergency Appeal for Indonesia and Sri Lanka. Along with initial support from the country and regional delegations, the Federation deployed within 24-72 hours three [Field Assessment and Coordination Teams \(FACT\)](#) and 14 [Emergency Response Units \(ERU\)](#) in the sectors of water and sanitation, health care, aid distribution, telecommunications, and logistics/transportation to Sri Lanka, Indonesia and the Maldives.

This Operations Update no. 20 focuses on the operations carried out in Indonesia.

Summary of the human toll caused by the tsunami as of 13 January

Countries	Dead	Missing	Displaced	Homeless	Sources
Indonesia	110,229	12,000	651,678	392,000	Government
Sri Lanka	30,899	6,034	425,620	480,000	Government
India	10,672	5,711	646,967	200,000	Government
Maldives	82	26	21,663	n/a	Government
Thailand	5,313	3,254	n/a	n/a	Government
Myanmar	59	10	n/a	3,200	Government
Malaysia	68	50	n/a	4,296	Delegation
East Africa	244	n/a	52,000	n/a	Government
Total	157,566	27,085	>1,797,928	>1,079,496	

Note: East Africa covers tsunami-affected countries of Kenya, Madagascar, Seychelles, Somalia and Tanzania.

Indonesia

Overview

Restoring family links is a vital part of the tsunami relief operation. On 14 January, the joint PMI/ICRC operation reunited 9-year old Maemun Hamdani with his elder brother and another relative. His parents and younger sister are still missing.

Latest statistics from the Indonesian Department of Social Affairs put the Indonesian tsunami death toll at 110,229, with 12,132 people missing and 703,518 displaced. The Indonesian Military (TNI) has prepared two relocation sites near Meulaboh to accommodate some of the displaced population. Meanwhile, bodies continue to be removed, although the number unearthed daily in the city has been reduced significantly some three weeks after the 26 December event. Surviving residents of former neighbourhoods can be seen picking through the ruins trying to salvage some semblance of their former lives.

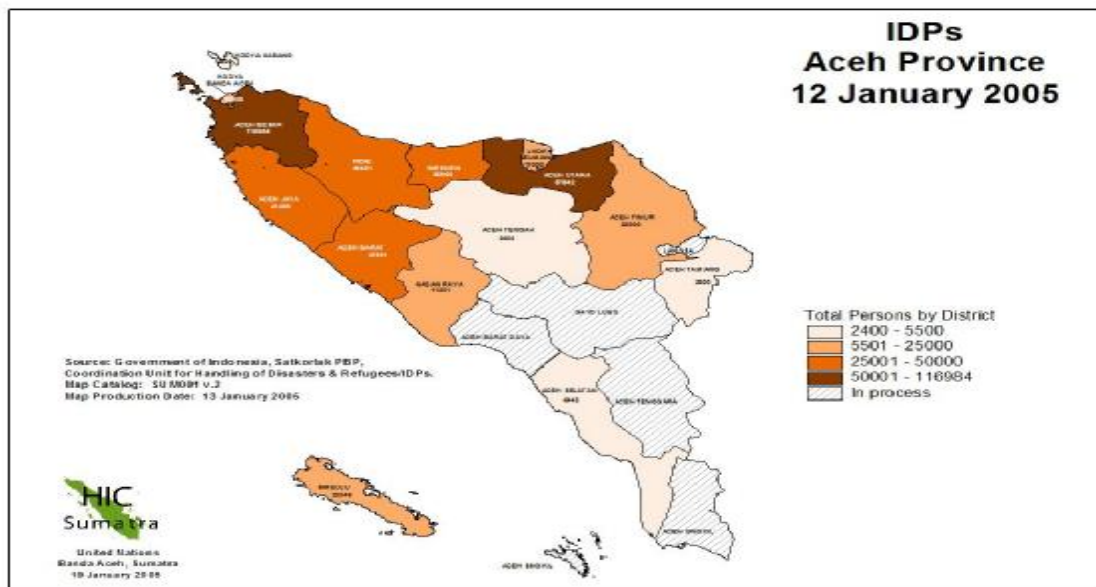

Conditions in the city of Banda Aceh remain difficult, with intermittent power outages, and monsoon rains keeping the ground muddy and sodden. Clean-up of debris and wreckage continues in the completely devastated downtown area – which covers several dozen acres of flattened landscape. Although there is a steady convoy of trucks removing the remains of houses, household items and vehicles, from the disaster zone, the extent of the destruction is so great that this work will continue for a long time.

The situation in internally displaced people (IDP) camps in Banda Aceh is precarious. People are living under tarpaulins in monsoon rain conditions, and very few tents have reached these camps. Although food appears adequate, there are very limited sanitary facilities, with 500 or more people to one latrine.

The Indonesian government has produced maps of the affected areas, which will be updated over the coming weeks. The statistics indicate that the highest concentration of IDPs is in the north of Aceh Province, with Aceh Besar at the northern tip and in Aceh Utara on the west coast, the most affected area (50,001-116,984 IDPs).

Surviving residents pick through the ruins trying to salvage some semblance of their former lives.

Coordination

The UN has stressed the importance of continued cooperation, coordination and partnership at local and international level to ensure emergency recovery of the affected population as well as longer-term rehabilitation and rebuilding of damaged infrastructure. There is a necessity to increase regional resilience and capacity to respond to disasters, through capacity building at local levels, improving disaster preparedness (for example through community involvement and public education) and establishing an early warning system with the support of international expertise and finance. Fulfillment of pledges made across the globe is crucial to these vital stages in the recovery of tsunami-affected countries.

The need for an early warning system was one of the key outcomes of the Small Island Developing States (SIDS) conference which concluded on 14 January in Mauritius. The UN Environment Programme's executive director stressed that the International Disaster Reduction Conference taking place in Japan next week should prioritise development of an early warning system in the Indian Ocean. The conference should also outline how such a system can be extended beyond the Indian Ocean to all seas and oceans across the globe and to all forms of natural and technological disasters including climate change. The UN Educational, Scientific and Cultural Organization (UNESCO) plans to have an Indian Ocean tsunami warning system operational by June 2006, expanding it globally a year later.

Operations are gearing up in Meulaboh, with approximately 30 international organizations on the ground providing relief assistance. Across Aceh province, health, water and sanitation, child protection and food operations are all underway. The National Coordination Agency for Disaster Management (BAKORNAS) has announced the establishment of a national command post for disaster management in Aceh and Northern Sumatra. A joint government of Indonesia-UN health assessment is underway, with participation of several NGOs.

Congestion of airports is still a major issue. The government of Indonesia has approved use of the airfield at Sabang on Weh Island for military operations in support of the relief effort (north of Banda Aceh where the airfield can receive planes up to C-130 type). This airfield could possibly replace Banda Aceh as a base for aid destined for the west coast of Sumatra. Roads from Jakarta to Medan are also congested and there is concern over the deteriorating quality of roads and bridges around Medan due to the increase in heavy traffic. Meanwhile, the UN Joint Logistics Coordination (UNJLC) is assessing Banda Aceh's main port and early indications suggest that the facility is repairable.

Communication and collaboration between PMI leadership in Banda Aceh and their Federation counterparts continues to strengthen. Information on relief supply movements and plans are exchanged and discussed at the daily meetings held at 1900 hours. The focus of attention in the coming days will be on distribution reporting systems, so that Federation updates can reflect progress to date.

Federation delegates continue to attend inter-agency meetings, and a representative attends ICRC security briefings. The Jakarta delegation disaster management delegate, who has played a large part in the tsunami response operation based out of Medan, visited the Banda Aceh office on 15 January. The delegate held several meetings with PMI Banda Aceh representatives and Federation delegates to coordinate plans for the forthcoming food distribution to some 500,000 affected people along both coasts, and to obtain necessary information for the PMI/Federation/ICRC planning meeting at Lhokseumawe on 17 January. The delegate also toured office and airport facilities, and visited three IDP camps in the city.

Red Cross and Red Crescent action

During the coming week, the base of operations for the Federation's support to PMI for tsunami relief activities will be relocated from Medan to Banda Aceh.

Tracing and messaging

Photos of missing people are put up over Banda Aceh by friends and families hoping for news.

PMI continues to reunite families in Banda Aceh and other affected areas through a tracing and messaging service set up in cooperation with ICRC. The service, also known as restoring family links (RFL) also has an emergency post in Jakarta. Since opening in early January 2005, the PMI Banda Aceh emergency post alone has served a total of 1,837 RFL cases: 1,082 reports of missing relatives, 14 unaccompanied minors, 664 “I’m alive” forms filled in, 15 people sending Red Cross messages, and 62 who used free phone conversations via satellite to contact their relatives

outside Aceh or overseas. Meanwhile, the PMI emergency post in Jakarta has received four Red Cross messages, and 302 tracing requests, 18 of which have been successful.

ICRC is also providing an information service for missing persons through its website <http://www.icrc.org/familylinks>.

Objective 1 (emergency relief): Basic supplementary food and non-food needs of 500,000 IDP and most vulnerable beneficiaries are met so that they can start rebuilding their future.

The two British Red Cross delegates with expertise in disaster management, and water and sanitation, who have been seconded to the Federation’s emergency relief operation on Sumatra, have been deployed on 16 January from Banda Aceh to Meulaboh, where they will set up a base of operations to support PMI activities in that area.

The Qatari Red Crescent relief delegate was in Lam No on 15 January, together with 14 PMI volunteers, and they have established an organized distribution system for relief supplies arriving by helicopter and by boat. This set-up includes an office, transportation resources, and warehousing. On 16 January, the delegate continued to Calang.

The team of seven Turkish Red Crescent aid workers will travel to Lhoknga by road on 16 January to support PMI relief activities in nine villages in the Lhoknga area.

It is estimated that approximately 10,000 people are living under tarpaulins provided through the PMI/Federation emergency non-food pipeline. 2,000 families at Meulaboh have received kitchen sets to date.

Helicopter flights 15/16 January 2005

Aircraft	Destination	Cargo
Sykorsky – 15 January	Lam No	Qatari Red Crescent delegate and 14 PMI relief volunteers with supplies to remain self-sufficient.
	Calang	Medical supplies and eight PMI relief volunteers with supplies to remain self-sufficient.
Bell 212 – 15 January	Teunom	Medical supplies, three government officials with a PMI representative.
Sykorsky – 16 January	Meulaboh	Two British Red Cross delegates and supplies for base camp set-up.
	Calang	Qatari Red Crescent delegate to assess relief distribution logistics and eight PMI relief volunteers with supplies to remain self-sufficient.
Bell 212 – 16 January	Lam No	Relief supplies for PMI volunteers to remain self-sufficient.
	Teunom	Swiss medical team of two, a PMI doctor, two nurses, and supplies for PMI volunteers to remain self-sufficient.
Russian Mi8	Meulaboh	Land Cruiser for PMI/Federation base camp set-up.

Boat trips 15/16 January 2005

Water craft	Destination	Cargo
5 ton – 15 January	Calang	Tents and blankets for 1,000 families.
6 ton – 15 January	Teunom	Tents and blankets for 1,000 families, food parcels, stoves, body bags and gloves.
3 ton	Lam No	Tents, blankets and food parcels for 1,000 families.

The projected needs for non-food items for the period between 10-15 January have been compiled and are attached as [Annex 1](#).

Coordination

While WFP is the lead agency for the forthcoming mass distribution of food to the affected population on Sumatra, discussions are actively underway on the strategic role to be played in relief deliveries throughout the impacted coastal regions.

Objective 2 (logistics): PMI will have a strengthened supply chain capability and capacity to ensure timely transport of material and human resources to the areas of operation.

A series of meetings have begun to take place between identified PMI and Federation counterparts on the coordination of logistical movements. The overall logistics coordinator for the Federation's tsunami response, currently in Banda Aceh, conducted a logistics assessment along the west coast today from Banda Aceh to Calang.

The ship transporting the Danish Red Cross base camp from Batam Island to Medan – for onward transportation by trucks to Meulaboh over the central mountain chain – has been diverted by the authorities to Lhokseumawe, where the trucks carrying the base camp will be offloaded. This will cause a number of days' delay for the trucks to now drive south to Medan before beginning the trip originally intended.

Two of the Norwegian Red Cross trucks donated to the PMI/Federation operation in Sumatra have been requested by PMI to be used for transportation of recovered bodies for burial.

Access to the large Russian Mi8 cargo helicopter made it possible on 16 January to transport by sling one Land Cruiser to Meulaboh. The Unimog for Meulaboh and another Unimog for Teunom were too heavy for the Mi8. A short-term shortage of fuel remains a concern at both Meulaboh and Teunom.

Coordination

The UNJLC has begun inter-agency coordination meetings in Banda Aceh, and a Federation representative attended the 16 January meeting.

Objective 3 (health): primary health care service provided to the tsunami-affected communities and potential epidemics are prevented or adequately addressed.

The Swiss Red Cross team of one doctor and one nurse held a day of discussions on 15 January with PMI in Banda Aceh to coordinate participation in bolstering health services in Teunom. The team departs Banda Aceh today for Teunom, together with one PMI doctor and 2 nurses, to support PMI and the German Red Cross basic health care unit activities in the Kundateunom region. They will join 17 PMI health services volunteers who are already on site and working at Teunom.

50 cases of tetanus have been reported to date, with 42 of these occurring in Banda Aceh.

Coordination

The Norwegian Red Cross field hospital is now up and running in Banda Aceh, in conjunction with ICRC. Two ambulances donated for use by this hospital are expected to arrive Banda Aceh within the next few days. Another two ambulances, for a total of four, will be utilized by the PMI Banda Aceh chapter.

Objective 4 (water and sanitation): the spread/outbreak of infectious diseases is prevented through water and sanitation interventions.

A rapid assessment of three IDP camps in Banda Aceh has indicated extremely poor sanitary conditions at these camps, and urgent attention is highly recommended to resolving this problem. These findings are in line with all other assessments conducted to date, which emphasizes that sanitation issues are critical at this time.

The Jakarta delegation water and sanitation coordinator conducted an assessment today of water and sanitary conditions on Simeulue Island.

Objective 5 (telecommunications): fast and reliable means of communication is secured in the areas of the relief operation.

The telecommunications delegate has sourced an alternate CDMA 2000 wireless telephone system in Banda Aceh, and has acquired several handphones and three wireless desktop office handsets for an alternate, reliable and relatively inexpensive means of voice communication for local point-to-point communications between delegates and for inbound international calls. This system is fully inter-operable with GSM handphones and with the global telephone network. A CDMA 2000 transmission node is also being installed in Meulaboh and is expected to enable wireless phone access there soon.

Two VHF handsets have been programmed to the UN emergency frequency. One handset will remain at the Federation office and the other will be placed at the delegates' residence. A VSAT high-speed Internet system is being installed in the PMI facility at Meulaboh. Once operational, this connectivity will greatly increase email and therefore operational and data communication with PMI and Federation staff working at Meulaboh.

The Internet connection at Banda Aceh from the satellite Internet service provider was not working for most of the day on 16 January. PMI and Federation email communications at Banda Aceh are largely reliant upon this system. Delegates only revert to the much more expensive satellite phone-based email transmission for critical or emergency reasons, or in the field where no other option is available.

Outstanding Needs

Human Resources

The Federation is recruiting 35 field delegates for Sri Lanka, Indonesia, Kuala Lumpur, Maldives and a delegate for the Federation office in New York. While candidates are being considered for seven of the posts, a total of 29 posts, as detailed below, are still to be filled. The recruitment of head of operations for Indonesia is extremely urgent.

An Acehese Muslim high-school girl sits in a classroom before the start of the first day back to class in the tsunami-hit town of Banda Aceh on the Indonesian island of Sumatra January 10, 2005. December 26's 9-magnitude earthquake and subsequent tsunami killed at least 156,000 people along the Indian Ocean, with Aceh province accounting for almost all of Indonesia's 104,000 deaths. REUTERS/ Kim Kyung-Hoon REF: ACE14D2

Place of assignment	Positions to be filled
Sri Lanka	Relief coordinator, IT delegate, logistics coordinator
Indonesia – Jakarta	Head of operations, logistics delegate, information delegate, Movement coordinator
Indonesia – Medan operations centre	Programme coordinator, administration delegate, logistics coordinator, logistics delegate, relief delegate, health coordinator, water-sanitation coordinator, fleet manager, IT delegate, psychosocial delegate
Indonesia – Banda Aceh sub-office	Head of office, administration delegate, relief delegate, flight coordinator, water-sanitation delegate
Indonesia – Meulaboh sub-office	Head of office, water-sanitation delegate, health delegate, relief delegate
Maldives	Relief delegate, water-sanitation delegate, construction delegate, information delegate
New York	UN liaison delegate

Relief needs

The following table summarizes the major outstanding material needs in the affected countries under this Revised Preliminary Appeal. Any national societies wishing to contribute to the relief pipeline are kindly requested to contact the logistics department at the Federation secretariat in Geneva.

Country	Major outstanding needs		
Indonesia	13,400 bed sheets	67,840 kitchen sets	5,000 volunteer rescue kits
	78,235 blankets	20 dispensary tents	26,785 family tents
	525,000 food parcels	98,500 hurricane lamps	90,000 mosquito nets
	250,000 hygiene parcels	135,000 jerry cans	232,500 sleeping mats
	155,437 tarpaulin sheets		
Sri Lanka	94,000 jerry cans	20,000 cooking stoves	
	33,000 kitchen sets	52,000 mosquito nets	
	240,000 sleeping mats	200,000 women's underwear	
Maldives	10,000 mosquito nets		
India	25,000 mosquito nets, 2,000 family tents, 3,600,000 water purification tablets		
Myanmar	8,500 kitchen sets, 4,700 tarpaulins		

Mobilization of goods

The list of needs posted on the [mobilization table](#) which is updated on a daily basis and posted on DMIS is a tool, which allows monitoring of outstanding needs and reporting on who has donated which items for which country. The table contains clear specifications (item codes coming from the Red Cross and Red Crescent catalogue are from the field). Lists are sent to the relief coordinator in the operations support department in Geneva, who formally requests the Logistics Department to add items on the mobilization table. To avoid confusion, this table will only be updated upon request from the relief coordinator in Geneva. Only goods listed in the mobilization table will be accepted.

The process for in-kind donations:

1. Read the mobilization table to see what items are outstanding.
2. Contact Geneva logistics department (contact information on Page 2 of this operations update).
3. Geneva logistics will allocate a commodity tracking number (CTN) for each item. One CTN per donor, per country per item. Shipping instructions will then be forwarded to the donor.
4. Follow shipping instructions and inform Geneva logistics department about shipping details. As shipping instructions change according to the situation, donors will receive updated shipping instructions for each consignment.
5. Geneva will compile all shipping information in the pipeline table and forward it to the field (ETA, ETD, documents and vessel numbers etc). It is from the pipeline table that delegates will receive accurate shipping details which enable them to receive and collect goods appropriately.
6. Once received in the field, a goods received note will be issued, forwarded to Geneva logistics who will send it to the donors as acknowledgement of receipt.

Unsolicited donations

The humanitarian space and the available logistics infrastructures (airport, port, warehousing) are limited in both Sri Lanka and Indonesia. Therefore, in order to avoid congestion and loss of items and to ensure accurate reporting, all items sent to the operation must be coordinated through the logistics cell within the Logistics Department in Geneva. Only items with tracking numbers which appear in the pipeline will be reported on and tracked. Unsolicited donations (unannounced or not listed in the mobilization table) will be re-routed to a remote warehouse and will not be distributed through the Federation system. The Medan airport is completely congested by unsolicited donations and essential items cannot be unloaded or distributed because of the current situation. To ensure an efficient operation, the mobilization process and shipping instructions must be respected by all parties.

Drugs donations

The governments in Sri Lanka and Indonesia have barred importation of drug donations until further notice.
