PAKISTAN: EARTHQUAKE

18 November 2005

The Federation's mission is to improve the lives of vulnerable people by mobilizing the power of humanity. It is the world's largest humanitarian organization and its millions of volunteers are active in over 181 countries.

In Brief

Appeal No. 05EA022; Operations Update no. 14; Period covered: 15-16 November 2005; Appeal coverage: 55.3%. [click here to go directly to the attached Contributions List, also available on the website; click here to view the attached map.](#)

Appeal history:

- Preliminary Emergency Appeal (launched as South Asia: Earthquake) on 9 October 2005 for CHF 10.8 million (USD 8.4 million or EUR 7 million) for four months to assist 30,000 families (some 120,000 beneficiaries).
- Operations Update No. 3 of 12 October 2005 increased the Preliminary Appeal budget to CHF 73,262,000 (USD 56,616,692 or EUR 47,053,307) to assist up to 150,000 families (some 750,000 beneficiaries) for six months, as an increasingly serious situation has unfolded.
- Operations Update, No. 5, revised down the number of targeted families to 70,000 (some 500,000 beneficiaries) based on the newly assessed delivery capacity and average family size of seven.
- Revised Emergency Appeal launched on 25 October 2005 for CHF 152 million (USD 117 million or EUR 98 million) to assist 81,000 families (some 570,000 beneficiaries) for six months.
- Disaster Relief Emergency Funds (DREF) allocated: CHF 200,000.

Outstanding needs: To date CHF 84 million has been received, of which CHF 42.4 is in cash and CHF 41.6 is in kind contributions. For information, please note that there has been a drop in the in-kind contributions coverage due to an error in our system regarding an exchange rate. More pledges are in the pipeline and will be reflected in the next operations update. Additional pledges – especially in cash – are still urgently needed.

Related Emergency or Annual Appeals: [Pakistan Annual Appeal 05AA049](#), [South Asia Regional Annual Appeal 05AA051](#)

Operational Summary: According to a preliminary assessment by the Asian Development Bank (ADB) and World Bank, Pakistan will need an estimated USD \$5.2 billion (CHF 6.8 billion) to implement an effective relief, recovery and reconstruction strategy. The Federation will launch its provisional recovery framework at the international donor conference organised by the Pakistan Government in Islamabad on 19 November, where discussions will focus on the long-term funding needs for the reconstruction and rehabilitation of earthquake-affected areas.

The Federation and the International Committee of the Red Cross (ICRC) are working closely with Pakistan Red Crescent Society (PRCS) to ensure coherent recovery planning, while relief operations continue. Specific studies are being carried out to improve the design of livelihoods and shelter programmes to reach affected communities.

The health programme is gradually expanding services beyond Balakot, Garhi Habibullah and Batagram with new medical regional disaster response teams (RDRTs) set to run mobile clinics in inaccessible areas of

the Kagan Valley. Assessments of water sanitation needs in affected areas are ongoing. The Federation's transport support unit has started to truck water to distribution points in and around Balakot, helping the Swedish/Austrian water sanitation emergency response unit (ERU) to deliver water to communities in the area.

For further information specifically related to this operation please contact:

- In Islamabad: Pakistan Red Crescent, Khalid Kibriya (Secretary General), phone +92 51 9250 404; fax: +92 51 925 0408
- In Islamabad: Irja Sandberg (Head of Delegation), email: ifrcpk08@ifrc.org; phone + 92 51 925 0416, fax +92 51 443 0745; Azmat Ulla (Acting Head of Delegation), email azmat.ulla@ifrc.org, phone +92 301 522 6903; Flemming Nielsen (Head of Operations), email: flemming.nielsen@ifrc.org, mobile: +92 0300 555 4522 (Pakistan) + 41 79 217 3343 (Geneva)
- In Geneva: Jagan Chapagain (South Asia Regional Officer), jagan.chapagain@ifrc.org, phone +41 22 730 4316, fax +41 22 733 0395; Christine South (Pakistan Desk Officer), christine.south@ifrc.org phone +41 22 730 4529; Penny Elghady (Asia Pacific Department), penny.elghady@ifrc.org, phone: +41 22 730 4864.
- For logistics /mobilization and coordination of consignments, in-kind donations and shipping instructions please contact: Victoria Tattersfield (Logistics Department), victoria.tattersfield@ifrc.org, phone +4122 730 4852; mobile: +41 79 308 9820; fax +41 22 730 4906.

All International Federation assistance seeks to adhere to the [Code of Conduct for the International Red Cross and Red Crescent Movement and Non-Governmental Organizations \(NGO's\) in Disaster Relief](#) and is committed to the [Humanitarian Charter and Minimum Standards in Disaster Response](#) in delivering assistance to the most vulnerable. For support to or for further information concerning Federation programmes or operations in this or other countries, or for a full description of the national society profile, please access the Federation's website at <http://www.ifrc.org>

Background

An earthquake with a magnitude of 7.6 on the Richter scale, centered 95 kilometres north-east of Pakistan's capital, Islamabad, struck at 0350 GMT (0850 local time) on 8 October 2005, with tremors felt across the region from Kabul to Delhi. The quake has decimated northern Pakistan and northern India. In Pakistan alone, enormous numbers of people have been killed and injured. More than 3.5 million people have been made homeless. The immensity of the disaster is one of the deadliest in the region in living memory.

Situation

According to a preliminary damage and needs assessment by the Asian Development Bank (ADB) and World Bank, Pakistan will need an estimated USD 5.2 billion (CHF 6.8 billion) to implement an effective relief, recovery and reconstruction strategy. Of this USD 3.5 billion (CHF 4.6 billion) will be needed for the reconstruction of housing, schools, health facilities, roads and other public infrastructure and the remainder for relief and rehabilitation.

The earthquake damaged a total area of 30,000 sq km, with over 70 percent of dwellings in the affected areas destroyed and the remaining 30 percent damaged. Some 365 hospitals and basic health units were ruined. An estimated 86,000 people were killed, among them 19,000 children. The number of severely injured has topped 128,000.

Recovery and reconstruction of quake-affected areas will be the focus of the upcoming international donor conference in Islamabad

Relief officials are scheduled to meet at an international donor conference organised by the Pakistan Government in Islamabad on 19 November to discuss the medium and long-term reconstruction needs in the areas affected by the earthquake. Measures have been taken by the federal capital, on 'high alert' following a bomb explosion in

Karachi on 15 November, to ensure foolproof security at the conference. Susan Johnson will attend the conference on behalf of Markku Niskala, the Secretary General, accompanied by the head of the Pakistan delegation.

Operational Development

The Federation continues to distribute shelter packages (winterized tents, blankets, tarpaulins, stoves, lamps, shawls, hygiene kits, mattresses, and kitchen sets) to families in Garhi Habibullah, Balakot, Batagram and remote communities in the Kagan Valley. So far, teams from the Federation and PRCS branches have reached some 17,000 quake-affected families or nearly 120,000 beneficiaries with relief goods.

Given the scale and complexity of the disaster, there will be a continued need to provide relief support to vulnerable people for a number of months, while simultaneously supporting and encouraging the efforts of families and communities to rebuild their homes and livelihoods. The relief programme is currently assessing areas north of Batagram, especially the Allai and Palas areas and may expand its programmes accordingly.

The Federation is simultaneously carrying out targeted recovery assessments and has developed a provisional recovery framework covering a planned programme for the next three to five years through to the end of 2010. In the short-term, the programme outlines three immediate phases for the coming six months: the pre-winter phase before locations become snowed in; the winter phase when access will be problematic because villages will be snowed in; and the spring phase when the snows melt. The Federation recovery programme is provisionally estimated to require CHF 300 million over five years.

The health programme also continues to grow. Plans are underway to expand services beyond Balakot, Garhi Habibullah and Batagram with new medical RDRTs set to run mobile clinics in inaccessible areas of the Kagan Valley. The Federation's transport support unit has started to truck water to distribution points in and around Balakot, providing urgently needed assistance to the Swedish/Austrian water sanitation ERU, which had previously found it difficult to deliver water to quake-affected people in the area due to the lack of transportation.

The PRCS plans to set up a 50-bed medical facility in the Chakoti sector. The society has already provided medical services in the quake-hit areas of PAK and the northern part of North West Frontier Province (NWFP), where eight medical teams are providing treatment to the affected population. The PRCS has adopted a three-pronged rehabilitation and reconstruction programme focused on the Chakoti sector, which aims to benefit some 200,000 people. The programme includes the establishment of villages for orphans and widows, the rehabilitation and reconstruction of schools and colleges, and support to primary and secondary care hospitals.

Coordination

Red Cross and Red Crescent Movement

The Federation is committed to continue its support to the PRCS and its branches, to support them both in the immediate response and in contributing to the longer-term recovery and reconstruction effort. The Federation is also supporting PRCS to engage with and coordinate other Movement partners, particularly in relation to the recovery planning process. Following the upcoming international donor conference, the Federation will meet with bilateral and unilateral partner national societies, the ICRC and the host national society to informally, in a round table discussion, present the draft framework for recovery and rehabilitation. The meeting will also present an opportunity to further discuss input and take comments from other Movement actors.

The table below reflects support provided by partner national societies to the earthquake relief operations, to date.

Name of society	Assistance provided to date
Kuwait Red Crescent	Operates relief camps in Bagh (Chittar), Balakot, Gual Mandi, Islamabad, Rawal town; Relief distributions in Bagh (Chittar), Balakot, Muzaffarabad
Saudi Red Crescent	Operates 50-60 bed field hospital with medical and surgical facilities in Mansehra
Turkish Red Crescent	Operates one field hospital, one mobile bakery and five psychosocial camps in Muzaffarabad; Relief distributions in Balakot and Islamabad; logistics operations in Islamabad
UAE Red Crescent	Rescue team in Islamabad and Muzaffarabad; Run an orphanage in Islamabad and a measles vaccination programme for children
Italian Red Cross	Operate field hospital in Mansehra
Oster Red Crescent	Setting up health care centre in Bagh (Dheli); Relief distributions in Mansehra

External partners

Good coordination continues between the Federation and the Pakistan government/military as well as with the United Nations and other international agencies. The Federation continues to attend meetings in Islamabad and the field with cluster heads from various agencies, providing human resources and technical support to the cluster group on shelter.

Red Cross and Red Crescent action - objectives, progress, impact**Emergency relief (food and non-food)**

Objective: the basic shelter and household needs of 81,000 earthquake-affected families (approximately 570,000 people) in northern Pakistan are met over the next six months, enabling them to start rebuilding their future.

Progress/Achievements

Federation/PRCS teams have focused during the reporting period on carrying out assessments to verify the numbers of families who will be entitled to shelter 'packages' over the coming days. Relief distributions have been a bit slower during the past couple of days, but are expected to pick up in the coming days.

Special helicopter relief operations, focusing on the more remote and isolated areas of the Kagan valley, have continued to be deployed to assess and distribute non-food items using United Nations assets. Assessments have been conducted in the outermost northern areas of Battakundi by air and Naran by observation and meeting with locals. Assessments have confirmed that only minor earthquake damage exists in these areas. The process for the helicopter operation continues to be refined to address the challenges of access and coverage. The regional disaster response teams (RDRTs) are continuing to access and assess remote areas, often covering up to 20 km a day on foot over rugged and steep terrain.

Federation relief distributions as of 16 November

Location	Tents	Blankets	Tarpaulins	No. of Families	No. of Beneficiaries
Garhi Habibullah	5,663	36,618	5,474	5,669	39,683
Balakot	4,047	27,669	4,047	4,047	28,329
Batagram/Battal	4,523	32,434	4,527	4,523	31,661
Kagan Valley	0	8,980	2,600	2,681	18,767
Total	14,233	105,701	16,648	16,920	118,440

Emergency health and care

Objective: Some 250,000 earthquake-affected people in northern Pakistan have access to appropriate quality health care, safe water and sanitation services in the next six months.

Progress/Achievements**Basic health care:**

Red Cross Red Crescent health services are effectively complementing the medical facilities of the Ministry of Health (MoH) and the Pakistan military and, to date, have benefited more than 36,000 people.

The Federation's mobile clinic programme has requested the support of additional RDRT medical teams, comprising six medical staff (ideally three women) to work in villages along the Kagan Valley north of Balakot, Ghari Habibullah and outlying areas of Batagram. As with the helicopter relief operation, the medical teams are increasingly focusing on more remote areas to the north, as Balakot, Batagram and Ghari Habibullah fill up with other agencies. Incorporated into these teams will be local health workers and PRCS volunteers. The focus of the teams will be to serve those clusters of people who are unable to easily access static clinics by providing primary health care services. A weekly schedule will be established in each area so that the local population can gather on given days.

The RDRT medical teams will also work with the 200 women health workers to distribute female hygiene kits, provide stock and monitor the work done in each area. Discussions with the MoH have been most encouraging and women health worker supervisors from each area are anticipated to accompany the teams. Where possible, the hygiene promotion delegates and members of the psychosocial support team will join the medical teams. The teams will be able to refer more serious cases to the ERU's or the Abbottabad field hospital when needed.

Mobile clinics help ensure primary health care services reach communities unable to access static medical facilities

Female volunteers on the special relief helicopter operations have revealed that the male members of the beneficiary families have been distributing the contents of hygiene kits and that the women do not necessarily receive what they need. The health team, in consultation with female national staff and volunteers, will put together female hygiene kits for distribution through Federation-supported women health workers in Batagram, Balakot and Ghari Habibullah. One article commonly requested by women is a mirror – a simple item that can go a long way in helping to boost self-esteem.

Water and sanitation:

In Balakot, the Swedish/Austrian water and sanitation ERU is now providing 150,000 litres of safe water daily to the population and to health structures. In Batagram, the German/Austrian ERU is providing 40,000 litres of safe water a day for local population and health structures. This includes trucking water to outlying distribution points. Sanitation teams are being built up. Contractors and local staff are beginning mass latrine construction and health promotion activities. Health promotion teams are being established in both locations. Health promotion teams are being formed with support from Unicef, and using culturally appropriate education materials.

The plan is to expand both water and sanitation and hygiene promotion efforts in Balakot and Batagram in the coming weeks. Additional ERU team members have been requested for both Balakot and Batagram to carry out this plan. The water and sanitation coordinator and two delegates have now established an operational base in Mansehra, and three additional sanitation team members are due to arrive to further increase efforts in this area.

The Federation continues to provide assessments of water and sanitation needs in both NWFP and PAK. In Chakoti, an assessment was carried out at the PRCS field hospital and discussions are underway with the ICRC to determine who will take the lead in setting up necessary water sanitation systems.

In Bagh, the water system is up and running and will provide water to the 40-bed PRCS/Qatar Red Crescent field hospital, scheduled to open within days. Latrines for the hospital are now under construction.

Logistics/IT/Telecommunications

Objective: The ongoing PRCS and Federation relief operation have efficient logistical, IT and telecommunication infrastructure in the operational areas.

Progress/Achievements

Logistics:

Air and sea freighted Federation relief goods and equipment continue to flow into Islamabad, Peshawar and Karachi, with 93 flights received and over 365 truck loads of goods dispatched so far. Together with PRCS, over 760 trucks loads of aid have been dispatched to date for distribution to earthquake survivors.

The 40 M6 trucks operated by the Federation transport support unit (TSU) are now based in Mansehra. Two trucks have been allocated to the Swedish water sanitation ERU in Balakot, initially for a period of two weeks, to help transport water to five distribution points in and around Balakot.

In terms of mobilization, tents and tarpaulins remain the top priority. The production of tents from the Chinese production line is continuing and donors can still buy-in to the tent production for the coming days. Donor national societies have been notified of changes required by the Pakistan Government in relation to providing in advance original documentation on consignments. This is a major challenge to the smooth arrival of goods in country and we are discussing with the PRCS and the authorities to try and find a solution. We are still primarily seeking unearmarked cash donations to allow for the maximum flexibility in responding to consolidated relief needs.

Communications – Advocacy and Public Information

Objective: The needs of the earthquake-affected population in Pakistan are advocated for and the Red Cross and Red Crescent’s interventions profiled through national and international media coverage

Progress/Achievements

The information team has received requests for support from the Swiss, German, New Zealand, Swedish, Icelandic and Norwegian Red Cross societies in the past two days. This support differs from the logistical and technical support provided thus far to national media teams working with national Red Cross media departments, and is more to provide information and materials directly to national societies. The team is working on producing relevant materials and photographs.

One information delegate accompanied the PRCS to Chakoti, where the society plans to set up a field hospital. The other information delegate will go to the field in the coming days for further information gathering to produce web stories on relief and the use of the Norwegian Red Cross donated M6 trucks. The delegate was also interviewed on the Icelandic Channel 2 Television Morning Show on the earthquake relief operation.

Outstanding Needs

- Response to the appeal is continuing to come in slowly. However, donors are still urged to continue to contribute the appeal. Cash contributions are still needed to allow the Red Cross and Red Crescent to fully mobilize its emergency operations and to remain flexible to changing needs as we move into winter.
- The detailed mobilization table is available and updated on [Disaster Management Information System \(DMIS\)](#). The Federation is still working on mobilizing specific relief items and it is important that donors coordinate with the Secretariat’s logistics department in Geneva regarding outstanding needs. Where possible, relief items will be procured locally.
- The following longer-term positions need to be sought internationally and regionally: head of operations, deputy head of operations, head of support services, finance delegate, human resources delegate, legal delegate, information coordinator, IT/telecom coordinator, logistics delegate, procurement delegate, warehouse manager, security coordinator, shelter coordinator, recovery coordinator, health coordinator, health delegates, general surgeon, orthopaedic surgeon, operating theatre and surgical ward nurses, and shelter coordinator, and water and sanitation delegates (hygiene).
